“Fresh, crisp, clear, accurate replacement retainers that your patients have total control over. Great cost-effective image builder for you and your practice in this era of providing extraordinary patient experiences.”

Dr. Alan Bagden\*

Nearly Invisible retainers.  
Smiles for life.

\* The opinions expressed in this article are those of Dr. Bagden. AOA is a medical device manufacturer and does not dispense medical advice. Clinicians should use their own professional judgment in treating patients.

Whether you are about to complete treatment, have been out for several years or never had braces, teeth are prone to shift and move as we age. Prevent relapse and maintain your healthy smile by using Prezurv™ retainers.

**prezurv<sup>+</sup>PLUS**  
Powered by TruGEN™ Technology

AOA continues to enhance its Prezurv™ product line of disposable retainers with our .040 TruGEN XR™ material option. We have partnered with Spark™ Aligners to offer their TruGEN™ material in a retention option which is more rigid, thicker, and sustains retention\*.

### Features and Benefits

- Clear retainers shipped to your office to hold your patient's ideal position.
- Available in scalloped or straight trim.
- Bonded lingual wires or pontics can be added if needed. Pontics are available in the most popular tooth shades.
- One week\* turnaround time.
- Impressions/molds can be taken with braces in place.
- Retainers come with models, storage container and box to store additional retainers.
- Available in single tray or dual arch options.
- Choose from .030 material or .040 material using TruGEN XR™ technology in Prezurv Plus.

\* Appliances with additions like Memotain®, set-ups, pontics, scans or impressions that are distorted may take longer.

**Clear retainers in single tray or dual arch options**

**Designed to be durable material for long periods of wear**

**Preserves current tooth position**

**Proper wear increases long term smile protection**
